

Nature Pedagogy from Theory to Practice

How do we intertwine nature into all forms of learning whether we are inside, outside or beyond? How do I improve my theoretical understanding of nature pedagogy while also gaining confidence and practical experience working with the natural elements? Join Claire Warden associate trainer **Briony Brooks** for four full day sessions exploring nature pedagogy and documentation. This series of workshops will include free access to a recorded Nature Pedagogy webinar with Claire Warden as well as a nature pedagogy passport.
