

OPTICS WORKSHOP

Wednesday, 6th March 2019

9.30am - 4pm | \$115 p.p.*

Living Kaurna Cultural Centre

Warriparinga Drive, Bedford Park | with: Jess Shaw

Register at: <http://bit.ly/lis-optics-march6>

This workshop provides educators and teachers with a variety of tools and educational concepts to meet a range of requirements of the NQF and the EYLF.

Enjoy a day of lights, colours and optical illusions exploring the land of mirrors, colourful shadows and nature's paint palette. This STEM learning opportunity will help you:

- discover how light, colour and vision have a great impact on us
- understand and explore light streams through the eyes of a child
- collect ideas for project work and child-led projects that scaffold children's learning and development
- implement our inquiry-based educational approach
- benefit from the exchange with other educators and teachers
- feel confident in unlocking the wonders of STEM
- take home information and inspiration in the Optics booklet and cards you receive.

Public transport: Take multiple bus routes towards Marion Rd. The closest train station is Tonsley and 10 mins walk from the venue.

Parking: Free parking is available within the vicinity of the venue.

Further information: Wear clothing suitable for hands-on activities and experiments.

This workshop is suitable for all educators and teachers and prior STEM knowledge is not required.

*Ticket cost includes morning and afternoon tea. Please BYO lunch.
