

# Planning observation tours for Directors throughout March

free

**Come to Gowrie SA and reflect on your own service and programs for children by looking at ours in action.**

Following the observation tour, take the opportunity to plan the professional learning needs of your centre with one of our consultants, so that your centre has a clear direction in 2019.

We have a very limited number of times available throughout the month of March only (one place available per site).

All you need to do is call or email us early to book a time slot. These spots will fill fast, so the best time to book is now!

**To book, please contact:**
